## Our Sustainability Strategy

Inno Knits takes a holistic approach to tackling the issue of hazardous chemicals in the manufacturing chain, ensuring all waste products, including smoke, water and chemicals, are disposed off properly.

## Sustainable Fabrics & Dyeing

- Organic cotton, natural & recycled fibers
- Less water dyeing
- E-flow garment processing using 90% less water
- Water -free dope dyed polyester
- Thermoelectronic & sediment dye house online dye management

## HIGG Index

We use the HIGG standard to assess our organization's environmental and social sustainability throughout the supply chain, allowing us to identify ways to improve our performance.

As a result of this, we have identified and improved our environmental performance across many areas, including energy and water usage, greenhouse gas emissions and waste/chemical management.

We are committed to providing transparency across all of our sustainability efforts, and the HIGG index is one of the tools we use which helps us monitor and document our progress.
